“08” of June 2022

**To the International Relations Office of
Polytechnic University of Valencia**

Dear Mrs. Elena Taulet Grech!

The current circumstances do not allow a selective process to be carried out as is usually done. Considering the high academic record and other merits such as command of English, participants of scientific events the Academic committee of Odesa State Academy of Civil Engineering and Architecture has decided to propose the students:

- Hanna Shchetkina, FY001974
- Mariia Khomko, FY242756

carry out the stay in the first semester of the 2022-23 academic year in Polytechnic University of Valencia.

We extremely appreciate your support and cooperation to us. I wish you and Polytechnic University of Valencia growth, prosperity and all the best.

Rector

A. Kovrov
